## ePolice

ePolice is a cloud-based dynamic law enforcement operational management solution that integrates all functional units of law enforcement including case management, criminal investigation, demographic databases, automated biometric identification system, case diary, report analysis, and data exchange capabilities with different agencies. This highly customizable and mobile platform is designed to perform efficient and effective law enforcement operations.

# Business Challenges - ePolice

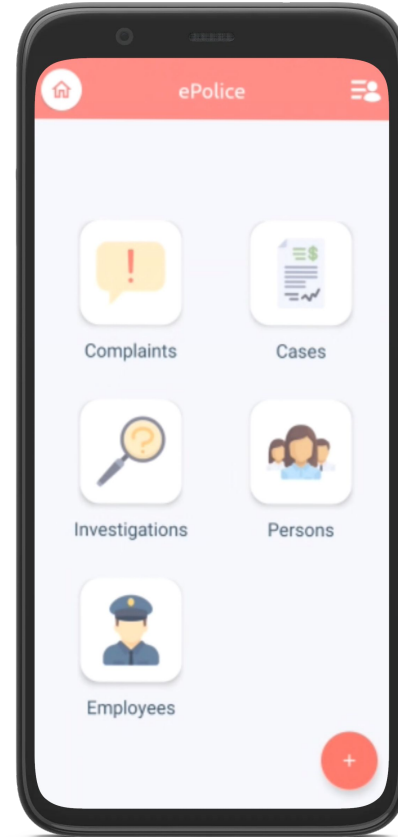

- If the Government wants to know how many child abuse cases have been reported in the past 6 months, gathering the data is a cumbersome and time consuming process.
- Using paper logs means records can get easily damaged and lost
- Information can not be logged and stored on the move, officers need to wait until they're back at their workstations creating an inconvenience
- Information is decentralized

# ePolice Overview

- Web and mobile app
- Log complaints
- Conduct investigations for cases
- Store crime scene information, preliminary inquiries, evidence, identification details of persons involved, interrogations, notes and more in your case diaries
- Build centralized databases of suspects, victims, witnesses and accused persons
- Store relevant report information with your investigations
- Log warrants and record bail bonds

# How Does It Work?

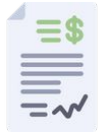

# Main Modules

Complaints

Persons

Cases

Organization

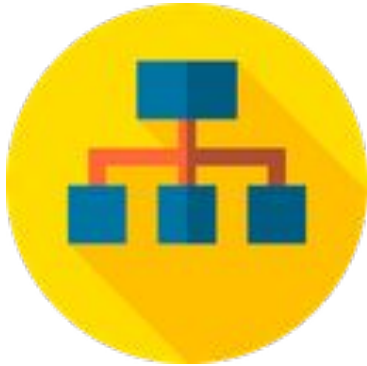

Investigations

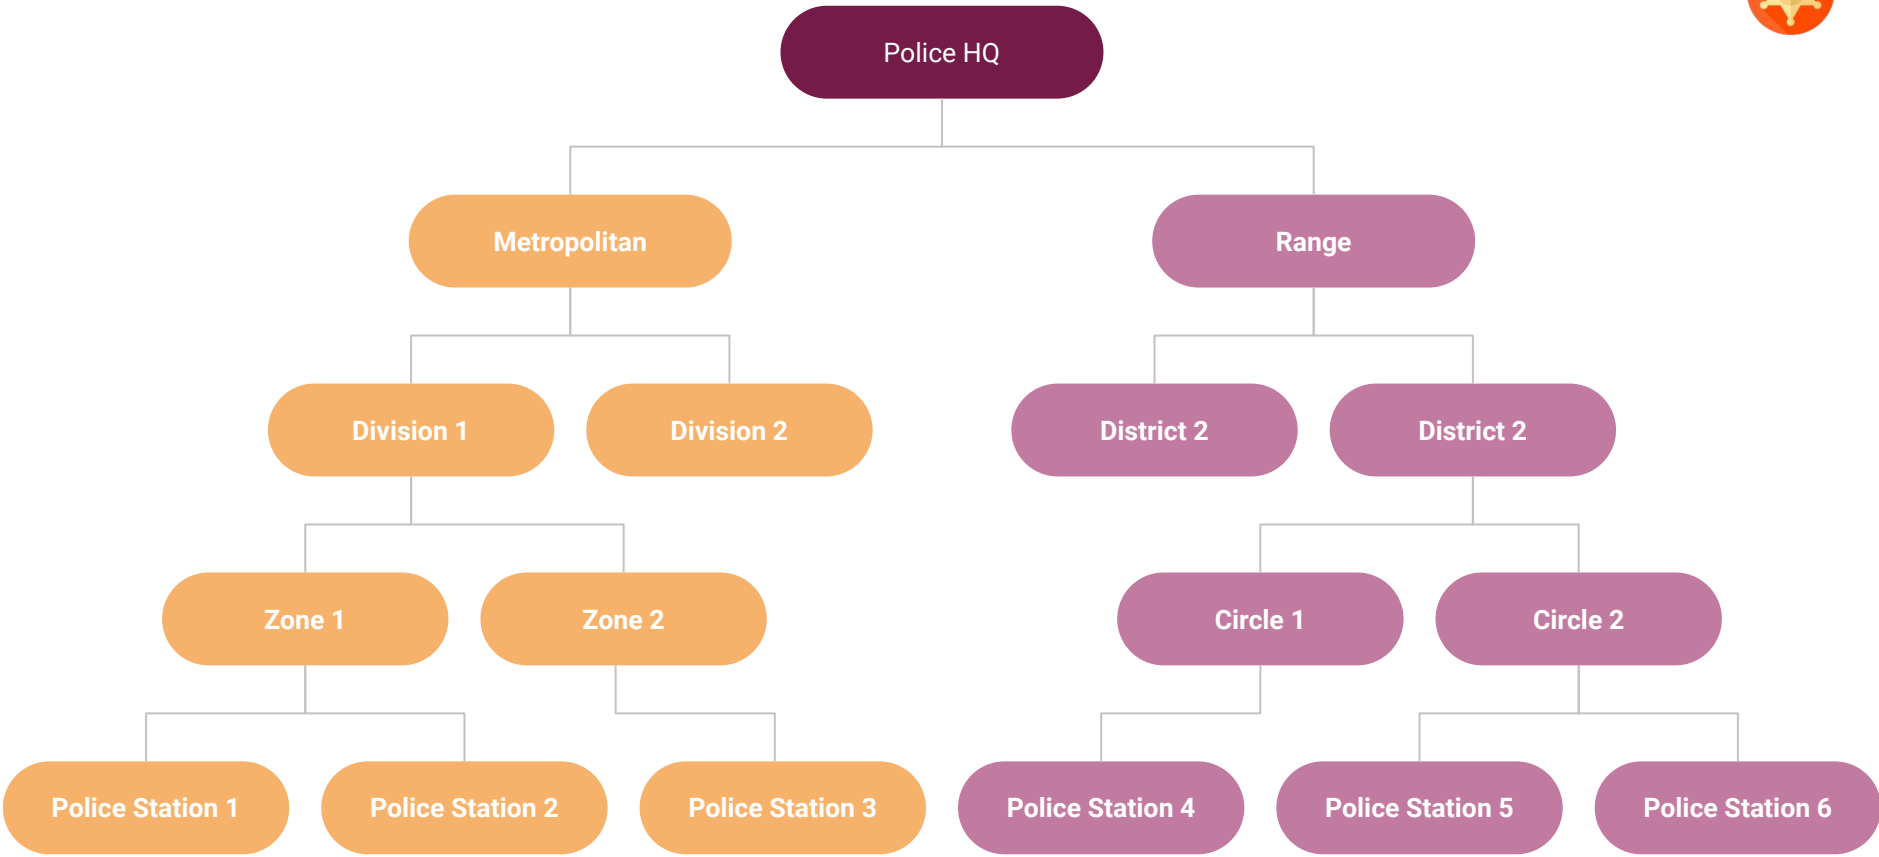

Reports

# Organization

- Employees
- Police Units
- Metropolitan Police
  - Divisions
  - Zones
- Range Police
  - Districts
  - Circles
- Police Stations
- Courts

# Organizational Hierarchy

- ❑ **Police HQ**
  - ❑ **Police Unit (Metropolitan)**
    - ❑ Division
      - ❑ Zone
        - ❑ Police Station
  - ❑ **Police Unit (Range)**
    - ❑ District
      - ❑ Circle
        - ❑ Police Station

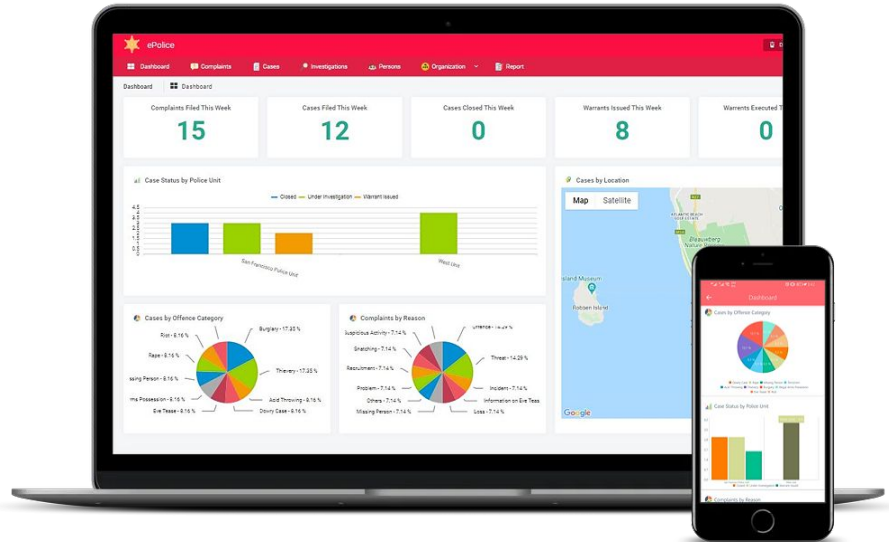

# Position Hierarchy

<b>Position</b>	<b>Office</b>
Police Chief	Police HQ
Assistant Chief	Police Unit (Metropolitan/Range)
Deputy Chief	Division/District
Commander	Zone/Circle
Captain Sergeant Officer	Police Station

# Why Choose ePolice ?

- Information is centralized and easily accessible while on the move
- Robust reporting that saves on time and resources
- Evidence logs are stored and backed up
- Information can be recorded while on the move, increasing efficiency
