Mobile Fingerprint Scanner

by **M2SYS**

Mobile Fingerprint Scanner for Handheld Use

This portable biometric device is the newest addition to the M2SYS mobile biometric platform. The rugged handheld Android device is a great option for field use where larger machines such as laptops are impractical and difficult to move around.

All-in-one industrial design

This is a rugged and durable mobile fingerprint terminal powered by Android with various components offered within a single design. It also includes a barcode scanner, 5MP/8MP rear camera with autofocus, a 5 inch multi-level capacitive touchscreen and a NFC or RFID scanner. The integrated fingerprint sensor is capable of capturing ISO/ANSI standard fingerprint images. You can access a cellular network via the two SIM card slots and insert one TF card for external storage. The device also has micro USB 2.0 port for interaction with other devices.

Proven mobile fingerprint device

This portable fingerprint device can be delivered with either an optical or capacitive fingerprint sensor. If you are looking for a more sleek and lightweight device, there is also an ultra-slim version of the fingerprint scanner available. This device can capture fingerprint images in ISO/ ANSI formats and is fully compatible with the M2SYS biometric software suite for data capture and identification.

Powerful portable fingerprint device

This portable Android computer is powered by Android 5.1 with a Quad Core central processing unit. Also, this device has 1GB RAM and supports up to 8GB of flash memory. Finally, the mobile unit comes with a gigantic 6000 mAh battery for long battery life.

Secure and fast connectivity

This portable fingerprint device can provides fast connectivity for data transfers via a USB 2.0 wired connection. The device also supports accurate GPS reporting for location tracking activities. It is also WIFI and Bluetooth ready and has data connectivity support for 2G, 3G and 4G networks.

Built for large scale deployments

This handheld terminal is designed for large-scale deployments such as Voter Registration, Jail Management, Police Case Management, Logistics Support, Industrial Activity Tracking, Banking and Finance Management, Business Operations Management, Workforce Management, National Census, Border Security Management, and Healthcare Solutions

Flexible pricing options

To serve the unique needs of varying projects, this mobile fingerprint device comes with a set of customizable components so the pricing can be adjusted accordingly. Depending on your project requirements, you can choose from some of the the highest quality and most affordable fingerprint sensors available in the market.

Specifications		Note
LCD screen	5" 720*1280 IPS LCD screen	
Type of touch panel	G+G capacitive multi-touch panel	
Operating system	Android 6.0 Operating system	
CPU	1.3GHz Quad-core	
RAM	1GB	or 2G
NAND flash	8GB	or 16G/32G
Camera	Rear 5MP	
Battery	3.7V /6000mAh	
Wi-Fi	802.11b/g/n	
2G	Built-in 2G (GSM 850/900/1800/1900MHz)	
3G	Built-in 3G WCDMA 2100 (optional: 850/1900MHz)	
4G	Built-in 4G B1/B3/B7/B20 (optional:B5/B38/B40/B41)	
Barcode scanner	Yes	
NFC	Yes	
Fingerprint	Yes (PA00I optical)	
Bluetooth	Yes 4.0	
GPS	Yes	
FM	Yes	
G-sensor	Yes	
Speaker	1 speaker	
I/O ports	Audio port	3.5ø earphones
	USB port	1x5-pin micro USB port (2.0 high-speed)
	USB 2.0	1x4-pin USB 2.0
	DC port	1x5V DC, 2A
	MicroSD slot	MicroSD card/up to 32GB
	Button	Power, VOL-, VOL+, reset, scan
	SIM card slot	One SIM card
Power supply	Adapter 5V/2A DC	
Accessories	Power adapter, USB cable, OTG cable
